Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance
2. A telephone interview with Jarrett Millar on both 6/1/2006 and 6/2/2006 clarified that in claim 1, lines 17-18 in step "b", "an annular chamber in which is disposed a rigid back-up member disposed adjacent said high pressure shaft seal, said back-up member" means that the rigid back up member is disposed in the annular chamber, and the rigid backup member is also disposed adjacent said high pressure shaft seal.

Examiner reviewed and agreed with applicant's arguments of 4/4/2006 that Niemec does not teach the high and low pressure seals as described, especially in view of the specification's definition of high pressure seals in paragraph [0023]. This argument was considered persuasive when updating the search.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: In Fig 2, please adjust the lead line for "77" so it is clear what the seal is. Please change lead line for "87" so it is clearly pointing to the notch. Please label the horizontal space above "79" / below "81". Please label the annular chamber portion that is, in the order of the direction of leakage flow as described, after the high pressure shaft seal (that the backup ring is in). These were explained to examiner over the phone, and agreed to be clarified on amended drawings after allowance. In order to

avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Examiner notes that a related European patent application, EP03012903 was located when updating the search. The EPO cited four documents as relevant.

Examiner has obtained the two US documents and is citing them as considered, but could not consider the two foreign patents as they were not provided, and examiner was unable to obtain these.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Katherine W. Mitchell whose telephone number is 571-272-7069. The examiner can normally be reached on Mon - Thurs 10 AM - 8 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, J. J. Swann can be reached on 571-272-7075. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
